## ARE GETTING BUSY WITH WANLASS GROUP

John Roundy and Others Preparing to Do Much Development Work on Claims in North Tintic.

Preparations are being made by John Roundy and associates for an extensive campaign of development for the Wanlass group of claims in North Tintic, Machinery is to be installed

Tintic, Machinery is to be installed shortly and the property is to be equipped in a first class manner. It is asserted by the officials of the company that every effort will be made to get down to depth on the property this summer and according to surface indications some good ore bodies should be encountered at a depth of 200 or 300 feet.

The Wanlass Mining company was recently incorporated with John Roundy, superintendent of the Knight interests in Tintic, as president and general manager. Perry B. Fuller, who is an assistant to Mr. Roundy, is vice president and W. E. Eyans, another man in the employ of the Knights, is secretary and treasurer. The officers with E. F. Burch, Nate Rockhill and Oliver Cederstrom form the directorate.

The property consists of 22 full claims, and is seven claims in length. According to Mr. Roudy the property is in a dolomite time similar to that in the Colorado and Iron Blossom. Besides this he asserts that a lime and quartz contact and a lime and porphyry contact run the entire length of the property. A vein of quartz which traverses the entire length of the property is about 10 feet wide, it is asserted. Assays from this have shown from six to 10 ounces of silver The property consists of 22 full the property is about to teet wide, it is asserted. Assays from this have shown from six to 10 ounces of silver to the ton. At frequent intervals there are a number of manganese

blow outs.

It was under the direction of John Roundy that the Humbug Uncle Sam, Colorado, Beck Tunnel and Iron Blossom mines were developed. Fefore becoming interested in the property Mr. Roundy made a thorough investigation and declares that he is convinced that there is ore to be found there. Burch and Fuller, who are also old hands in the district declare they are of the same opinion.

same opinion.

The property is four and a half miles north of Homansville and just east and north of the old Gold Blossom that produced good lead and sliver ore in the early days. For years this property has laid idle, but it is now-being worked being worked.
The company

The company is capitalized at \$100,-000 with shares at 10 cents each. Of this number 400,000 shares were set aside as treasury stock.

#### JUST ANOTHER SLOW DAY. Local Stock Markets Fail to Stir Up

Interest in Mining Scendities. he local stock markets told the same old story again today. The buying and selling of securities was extremely slow. But two stocks showed any activity and they were Seven Troughs and South Columbus Consolidated. Evi-dently there is some belief that Seven Troughs will be one of the big things this summer. Outside interests appear to be absorbing the stock as fast as

it appears on the market.
South Columbus Consolidated has a
large supply of ore on hand that is being shipped to the smelter. This was aken out in development work at the mine. This probably put new life into the stock and sent it moving up.

During the movining session of the Salt Lake exchange, 45,225 shares of stock were sold at \$27,838.25. On the Utah exchange 13,400 shares of stock were sold this working and the smount were sold this morning and the amount represented by the transactions was \$8,-

On the curb market today Bingham Eastern Prince was disposed of at 10 cents. Opex was offered at 40 cents today and Mammoth at \$1.5214.

## WRINGING METAL FROM SACRAMENTO DUMPS

Company Mill at Old Camp of Mercur Starts to Work.

(Special to the "News.") Mercur, June 17 .- The mill of the Utah-Nevada Mining & Milling company started on the treating of ore from the dumps of the old Sacramento mine yesterday and today the ma-chinery is limbering up in a manner that promises some good results. The mill has been tried out several times to limber up, but it was not until yesterday that the treatment of ore started. Within the next week something over 50 men will be employed at the plant which is designed to treat in the neighborhood of 200 tons a day. It is estimated that the amount of It is estimated that the amount of tallings in the dumps is in the neighborhood of 700.000 tons and from this it is believed a large amount of metal can be extracted. The mill is working out smoothly, but enough work has not been done to decide the feasibility of the greating and the large.

of success it will attain

L. A. Hunt is the president and general manager. The mill was designed by him for the special treatment of the Mercur ores. To a great extent it is copied after the old Mercur mill. He has sequent sufficient control from has secured sufficient capital from eastern friends to insure the success of the mill. He is a graduate of the Missouri School of Mines and during the time that the old Sacramento was shipping out ore, Mr. Hunt was the assayer.

assayer.

It is the intention of the company not to treat the product of the dump as closely as that treated at the Boston Sunshine and Consolidated Mer-

REORGANIZING NEWHOUSE MINE Plan to Care for the Mortgage, Float-

ing Indebtedness and Stock, ing Indebtedness and Stock.

A dispatch from Charles A. Morse of Boston, chairman of the reorganization committee of the Newhouse Mines & Smelters, declares that the plan adopted is now certain of being carried out. He asserts that \$1,000,000 worth of the outstanding \$1,300,000 in bonds have already been sent into the company to be ressued (under the plan. The necessity for reorganization is announced to the stockholders as follows:

follows;
"Owing to the recent depression in business generally, and in the copper industries especially, and also owing to numerous unfortunate caves and mishaps at the mines of your company located at Newhouse, in the state of Utah, your company finds itself with an indebtedness of nearly \$20,000 partly past due on which suit is threatened, and with no funds with which to meet the semi-annual interest that will fall due on July 1, 1909, on its \$1,300,000 par due on July 1, 1909, on its \$1,300,000 par value of outstanding first mortgage bonds, and the \$100,000 required also on July 1, 1909, for sinking fund pur-

poses.
"The company is unable to meet obligations and requires substantial further working capital for the development working the alteration of its ment of its mines, the alteration of its mill, and to pay its creditors. To that end a prompt reorganization is impera-

The reorganization committee, posed of Charles A. Morse, chairman Frank A. Schirmer and Louis N. Kra mer, plan the formation of a new com pany to acquire the property sunder foreclosure.

The new company will have \$1,300,000 6 per cent 20 year income bonds convertible into stock at par, \$5 per share, and 600,000 shares of common stock.

The holders of the present \$1,300,000 first mortgage bonds will exchange same par for par, for the new income bonds, and the present holder of the bonds, and the present holder of the 600,000 shares of common stock, of a par value of \$10, will receive a share of stock of the new company, par value \$5, for each share of the old, upon subscribing and paying \$1 per share. There will remain in the treasury 260,000 shares of stock to be held for the conversion of the bonds.

The cash requirements of this plan have been fully underwritten and security holders who desire to participate are required to deposit their securities with the Hungarian American bank, 32 Broadway, New York, not later than

#### BEATRICE IS SHIPPING ORE.

P. J. Daly Sends Two Cars to Smelter From Claim He is Working.

P. J. Daly, who is working the Bea-trice claim in East Tintic has shipped two car loads of ore to the smelter and is now sinking the shaft to greater depth. The ore was of a fairly good grade, running in the neighborhood of \$21 to the ton. Returns from the smelter have not been received as yet, but general assays show that the average of the ore would be over \$21 a

Several weeks ago Mr. Daly let a contract for the sinking of the shaft for an additional 100 feet beyond the 100 foot level. At the 150-foot level a body of ore was encountered. Drifting was started on the ore body and the vein opened out into six feet of ore. It was drifted on for 35 feet and two cars of ore were taken out. It is asserted Believing that much better ore could be secured at depth, Mr. Daly has directed the men to continue the sinking of the shaft. On the 200 foot level a drift will be sent out to catch the ore

NEW COMPANY INCORPORATES. Provo, June 17 .-- The Utah-Oregon Mining company has filed articles of incorporation with the county clerk. Lehl is the principal place of business. ## WILL BUY

alt in City Improvement war-Edward L. Burton,

11 South Main. Both Phones \$10.

A deal has been closed whereby Jack Hayes and his associates sell three fractional claims comprising about 25 acres to the Alunite Mining company, a New York crowd. The property sold for \$25,000 and was located about 23 miles from Las Vagas.

Bills of lading for the first two cars shipped by the Uncle Sam company under the new contract with the United States Smelting, Refining and Mining company, were received at the headquarters of the company vesterday

The Cave mine in Beaver county is in copper ore, which is a new thing for this property, A recent settlement with the smelter showed 'that the rock averaged 17.5 per cent copper, four to five ounces silver and \$2 in gold of the gold a ton.

Guy C. Barton who died Tuesday at his country home near Omaha, at the age of 70 years, was one of the best known mining men of Utah. Before the advent of the big smelter combinations, he was interested in the Hanauer smelting works and also the Omaha & Grant Smelting works. He was also heavily interested in property in Bingham canyon. At the time of his death he was interested in the American Smelting and Refining company.

The annual meeting of the Seven Troughs mining company will be held at Provo at 11 o'clock tomorrow morning. The meeting will be held at the Roberts house, it is understood that Secretary F. I. Gunnell, President R. J. Evans and Superintendent Ellithorpe will have some very good reports to make of the progress of the company during the past year. It is also understood that a prominent mining man will accept the position of president of the company.

#### WESTERN MARKET LETTER.

(Special Correspondence.) Kansas City Stockyards, June 14,-Catle receipts last week were several thousand head short of previous week, but killers claimed consumptive demand was not quite as broad as a short time ago, and trimmed down their orders accordingly after the middle of the week. Fed eattle gained a little the first of the week, but closed with the advance wiped out, while grass cattle declined 10 to 25 cents for the week. At this time a year ago this market was closed account of the Kaw river flood, but the water is now 12 feet below the flood stage, and soil and water conditions throughout the Kaw watershed are such as to make it impossible that we should have a flood this season. The run of cattle today is 10,000 head, market steady to a shade higher on light steers and on she stuff, strong to 10c, higher on stockers and feeders, but heavy steers are a shade lower, and calves are off 25c, today. Top steers sold today at 7.00, and a consignment of two cars of 1369 pound steers from the sugar factory at Billings, Mont., sold here today at 6.50. Three loads of liarris steers from Sterling, sold today at 6.50, and some of the Von Hagan steers raised at Ridgeway, Colorado, fed in Missouri, sold at 6.30 here today, weighing 1,169 pounds. Grassy steers range down around 5.00, and thin straight steers of low grades sell between 4.00 and 4.65. Cows and helfers range from 2.75 to 5.50, a few fancy helfers up to 6.50, stockers 4.00 to 5.25, feeders 4.75 to 5.50.

Mutton grades of sheep declined 50 to 75c, last week, but lambs remained about steady for the week. The run is moderate, 7.000 here today, market 15 to 2.5c, lower on lambs, sheep about steady. Range wethers now sell at 4.75 to 5.50, ewes up to 5.000, top spring lambs today at 85.50, fat goats 2.75 and 4.25, thin goats 3.25 to 3.65. The recent high range of prices has reduced volume of consumption, thereby enabling packers to demand lower prices, and the ton-heavy condition of the market and the reaction therefrom, is responsible for the late losses, rather than excessive receints, In this state of trade, prices may take a starp-turn upward at any time, although the dominant note of present predictions is toward weaker prices. 25 cents for the week. At this time a year ago this market was closed ac-

## **BUSINESS NOTES**

Today's local bank clearings amounted to \$1,160,003.15 as compared with \$895,500.27 for the corresponding day of last year.

Architect A. S. Price has completed plans for a four house terrace of two stories for Mrs. F. L. Hines, to be erected at D street and Fifth avenue, at a cost of \$12,000.

The Hubbard Investment company reports the sale of a number of choice lots in Fairmount Springs addition, which is located in the southeast of the city, between the Ashton avenue and Sugar House car lines.

A. N. Humphries reports that James J. O'Laughlin of Sugar House, has bought eight building lots in Idlewild addition, and will build cottages on

# ping of ore for several days, but according to last reports would be able to start up today. SPECIAL PRESSURE AGAINST COPPERS

New York, June 17 .- Opening prices of

New York, June 17.—Opening prices of stocks today tended downward. An advance of 1½ in New York Central was the only important change. Copper industrials were under special pressure, Anaconda losing 15g and Amalgamated Copper 1½, Some sympathy was shown with the rise in New York Central but the room traders rook advantage of the higher prices to put out more stocks and the market weakened sharply again. Losses were registered of 1½ in Chicago & Alton and 1 in St. Paul, American Sugar, Wabash preferred American Locomotive, American Smelting, Interborough Metropolitan preferred. Western Maryland, Republic Steel, Railway Steel Spring and United States Pipe preforred, Louisville & Nashville was marked up 1½ and American Steel Foundries L. There was prefty steady liquidation at declining prices during the second hour. The slump in the London price of copper metal made Amalgamated Copper the leader of the movement. That stock iost 3, Colorado Fuel 25g, Utah Copper, American Cotton Oil and American Smelting 2 and Corn Products preferred 15g. In the railroad list Reading feli 24g, and St. Paul, Wabash preferred, Union Pacific and Northern Facilic 12g, while the active list generally showed declines of a point or more.

Bends were irregular.

Wholesale Hauldation was continued, the collapse in the active specialties and the selling of low-priced stocks in which the buils have been operating in recently giving a disorderly appearance to the market. American Smelting broke 4%, Reading 44g, Wabash preferred 4, Amalgamated Copper 3%, American Sugar 35g. St. Paul 3½ and the active list quite generally 1 to 2 points. The wide breaks in prices between sales testified to the urgency of the liquidation and the lightness of the demand.

Quick profit-taking by the bears resulted in railies of 1 to 1½ in stocks that had been most severely handled. The tone was feverish at the rally, but the advance was resumed after some hestation.

The market closed rather unsettled and irregular. The railies caused by short coverings ran to 24 in stocks today tended downward. An ad-

## PRODUCE.

CHICAGO.

CHICAGO.

Chicago, June 17.—Relatively strong cables caused a firm opening in the wheat market here today but the downward trend of prices was resumed early in the session. Weakness of the three northwestern markets, where prices were off approximately 1 cent, was the chief reason for the fresh declines here. Opening quotations were unchanged to ½ higher, July being at 1.14% to %. After selling at 1.14% @1.13, July dropped to 1.13%.

Rains in sections of the corn belt resulted in slight gains at the opening in corn, but the market later eased off, in sympathy with the renewed weakness of what. July opened unchanged to ¼ higher at 71¼ to 71½, and for a time held within the opening range.

Oats were inclined to follow the course of other grains, July, which opened ½ to ¼ higher, at 50% to 50½, sold off to 50½ early in the day.

Provisions were firm owing to a falling off in receipts of live hogs at western packing centers. Prices at the opening were 2½ to 5c. higher.

Wheat—The market became strong during the last half hour of the day on active buying by shorts, July advancing to 1.15½ @5%. The close was active and strong, with July up 2 at 1.15½.

Corn—Buying of the July delivery by shorts was a feature of trading later in the day and as a result of this the price of that option advanced to 72%. The close was strong, with July up 17 at 72%.

Close—Wheat—July, 1.15¼; Seott. 1.077% @1.08.100.

The close was strong, with July up 17 at 72%, The close was strong, with July up 17 at 72%, Close—Wheat—July, 1.1514; Sept., 1.0778 @1.08; Dec., 1.0658@34; May, 1.0914.
